

Cooper is a 15 month old , gorgeous Shar Pei. He has been desexed/ had his vet work done. He'd love to find his person or peoples, to take him on the next stage in his journey in life and provide a forever home.

As he is quite young in the scheme of things, he still has some learning to do, and can be excitable. He would be ideal for someone who wants to go to obedience club or similar, and has some experience with dogs. Cooper has been great around kids in foster care. Has not yet been tested with cats so we're not sure on that front, not suited to a home with pocket pets.

Cooper would love a nice calm home with someone keen to be hands on and put in the training- are you that person? If so, please fill out an application form and we'll be in touch!
