

**Abby**

This little princess is 5 yrs of age, but like so many teenagers needs to learn to pull up her pants! Little miss happy go lucky potters around loving her life. We have had entropion surgery performed on Abby as well as a thyroid test which she failed! Consequently, daily thyroxine (less than \$1 per day) will be necessary for life for Abby, but she is so worth it!

This little chocolate horse coat gal who just loves to be loved is just waiting for her very own family to live the life with. She is both well and truly dog and kid friendly and longs to be a part of the gang. She is C5 vaccinated, desexed, had her eye surgery, been treated for worms and fleas and is good to leave rescue.

Abbey is an easy dog and will remain that way with regular bathing, good quality no grain food and weekly ear cleaning. Not much to ask given what she will give back to you!!

Available right now for so much less than the cost of her vet work @ just \$650
